1: Reasons and motivations:

What prompted you to enrol on the HFP?

Respondent 1

Respondent 2

What level of lameness do you think you have (% of herd which is lame)?

Respondent 1

Respondent 2

How do you think your lameness compares with other UK dairy farms? About average, better (fewer lame) or worse (more lame)?

Respondent 1

Respondent 2

Which types of lameness does your herd suffer from the most?

Respondent 1

Respondent 2

Which times of year do you seem to have more lame cows, if any?

Respondent 1

Respondent 2

What is it about lameness that motivates you most to want to reduce it?

Respondent 1

Respondent 2

What cost would you put on lameness within YOUR herd? (e.g. ppl, or £/cow/year)

Respondent 1

Respondent 2

What do you feel are the most important things affecting lameness in your herd?

Respondent 1

Respondent 2

What previous training or qualifications have you in foot care?

Respondent 1

Respondent 2

How confident are you in foot trimming/ foot care? (e.g. on a scale of 0 to 10)

Respondent 1

Respondent 2

2: Current understanding:

What do you call the following conditions? Briefly, what causes them?

What do you call this?

What causes it?

Respondent 1

Respondent 2

What do you call this?

What causes it?
